JUNIOR DATA ANALYST

Data-driven professional with a strong foundation in SQL, Power BI, and Excel, and hands-on experience translating business problems into actionable insights. Background in operations, sales, and customer success, with proven ability to analyze data, build dashboards, and support decision-making. Actively seeking a Junior Data Analyst role to apply analytical skills and grow in advanced analytics.

TECHNICAL SKILLS

- SQL: Joins, CTEs, Subqueries, Window Functions, Aggregations
- Power BI: Data Modeling, DAX Measures, Power Query, Interactive Dashboards
- Excel / Google Sheets: Pivot Tables, Lookups, Data Cleaning, Dashboards
- Analytics: KPI Design, Trend Analysis, Descriptive Statistics

PROJECTS

SUPERSTORE SALES ANALYSIS (SQL)

Tools: MySQL | 

- Analyzed a large retail sales dataset to identify top-performing products, customer segments, and regions.
- Wrote complex SQL queries using joins, subqueries, CTEs, and aggregations.
- Generated insights on revenue trends, profit margins, and customer behavior.
- Delivered data-driven recommendations to improve sales performance.

SUPERSTORE SALES DASHBOARD (POWER BI)

Tools: Power BI | 

- Built an interactive Power BI dashboard to track sales, profit, and order trends.
- Created KPIs for monthly sales growth, category performance, and regional comparison.
- Enabled business users to filter data by date, category, and location for faster decision making.

FIFA WORLD CUP DASHBOARD (POWER BI)

Tools: Power BI | 

- Developed a Power BI dashboard to analyze FIFA World Cup historical data including goals, attendance, and tournament winners.
- Performed data cleaning and transformations in Power Query to ensure consistent country-level reporting.
- Implemented DAX measures and visuals to showcase top scoring nations and long-term tournament trends.

PROFESSIONAL EXPERIENCE

Category Operations Associate — DealCart

Jan 2023- Sep 2025

- Managed end-to-end procurement cycle – from vendor sourcing, negotiations, and purchase orders to timely stock replenishment.
- Streamlined sales operations by coordinating with cross-functional teams to ensure product availability and order fulfillment.

- Analyzed sales and inventory data to forecast demand, optimize stock levels, and reduce overstock/shortages.
- Built and maintained strong vendor relationships, ensuring cost effective purchasing and consistent supply quality.
- Prepared and presented performance reports on sales trends, category performance, and procurement efficiency to support business decisions

Customer Success Associate – SWVL

Jun 2022 - Dec 2022

- Oversee the daily operational aspects of client transportation services.
- Effectively manage all financial matters, including invoicing and accounts receivable.
- Conduct regular bi-weekly client visits to foster and maintain strong client relationships.
- Strategically develop, prioritize, and implement various initiatives aimed at improving the customer experience.
- Ensure timely resolution of customer complaints.

Live Operations Associate – SWVL

Jan 2021- May 2022

- Monitored real-time operations using dashboards and tracking systems.
- Maintained and analyzed Excel reports to support supply and customer success teams.
- Worked with ERP and ticketing tools (Jira, Trello, Zendesk) to resolve operational issues efficiently.
